PROFESSIONAL EXPERIENCE

Hays Business Solutions Pvt. Ltd. — Senior Analyst
Noida, India | May 2022 – Present

- Prepared and maintained daily, weekly, and monthly MIS reports to track business performance and support management decision-making.
- Consolidated, cleaned, and validated data from multiple sources to ensure accuracy and consistency in reporting.
- Developed Excel-based dashboards and performance trackers to monitor key performance indicators (KPIs), productivity, and operational efficiency.
- Utilized advanced Excel functions, PivotTables, VLOOKUP/XLOOKUP, and conditional formatting for data analysis and reporting.
- Monitored operational metrics, including turnaround time (TAT), service-level agreement (SLA) compliance, productivity, and pending cases.
- Identified data discrepancies, investigated reporting variances, and coordinated with stakeholders to ensure timely resolution.
- Streamlined recurring reporting activities by standardizing templates and automating manual tasks to improve reporting efficiency.

EDUCATION

Jain University, Bangalore
Master of Business Administration (Pursuing) | Jan 2026 – Expected 2028

Agra College, Agra
Bachelor of Commerce | Aug 2016 – Apr 2019

- Head of Event Management Team; represented college in Handball and Badminton at Intra-University level.

KEY PROJECTS

Retail Store Sales Analysis — Power BI | GitHub

- Built an interactive Power BI dashboard to analyse retail store sales performance across regions and product categories.
- Visualized key metrics including revenue trends, product performance, and regional insights, enabling data-driven decisions that identified the top 3 revenue-driving categories.

Car Sales Analysis — Excel / Power BI | GitHub

- Analysed dealership sales data to identify high-performing models, seasonal sales trends, and revenue drivers across 12 months of transaction data.
- Produced reports highlighting inventory optimization and sales planning opportunities, contributing to an estimated 15% improvement in forecasting accuracy.

Employee Leave Management System — BA Documentation

- Conducted requirements gathering and stakeholder analysis for a leave management system serving 200+ employees.
- Developed a BRD, workflow diagrams, and process maps using BPMN notation to streamline leave request and approval workflows, reducing manual processing time by an estimated 40%.
